

A

```
graph TD; A{{A}} --> B[Penyusunan Tensor Masukan CNN]; B --> C[Konfigurasi Model dan Hyperparameter]; C --> D[Pelatihan Model]; D --> E[Evaluasi Model]; E --> F[Hasil dan Kesimpulan]; F --> G((Selesai));
```

The flowchart illustrates a sequential process for preparing and training a CNN model. It begins with a start node 'A' in a pentagon shape, followed by five rectangular process boxes: 'Penyusunan Tensor Masukan CNN', 'Konfigurasi Model dan Hyperparameter', 'Pelatihan Model', 'Evaluasi Model', and 'Hasil dan Kesimpulan'. The process concludes with an oval-shaped end node labeled 'Selesai'. Arrows indicate a downward flow from one step to the next.
